Digest #2(10)

February'20

Hello, the Joys team is in touch!

Almost half of January was inactive due to the New Year holidays, but this did not affect our effectiveness. We are also actively working to make Joys the fastest, most innovative and convenient payment service in the world.

In January we have done a lot, and we can't wait to share the news with you!

In this issue:

- **JOYS will be listed on the new exchange and on the CoinMarketCap**
- **Joys Wallet: added cryptocurrency exchange**
- **Joys mining pool and network monitoring update**
- **Joys at Asian Financial Forum 2020**
- **DSX and Connectum - our new partners for exchange of digital financial assets**
- **JOYS review from the YouTube channel «Cryptofishki»**
- **The best cryptomemes of the month**

JOYS will be listed on the new exchange and on the CoinMarketCap

On December 6, 2018, the JOYS cryptocurrency first listed on the **LATOKEN** exchange in pairs with **BTC**, **ETH**, **USDT** and **LA**.

During the year, you asked us to get listed on another exchange. We have listened to you and we are ready to announce that JOYS will be listed on the new exchange during February.

Which one exactly — we will inform you closer to the listing date.

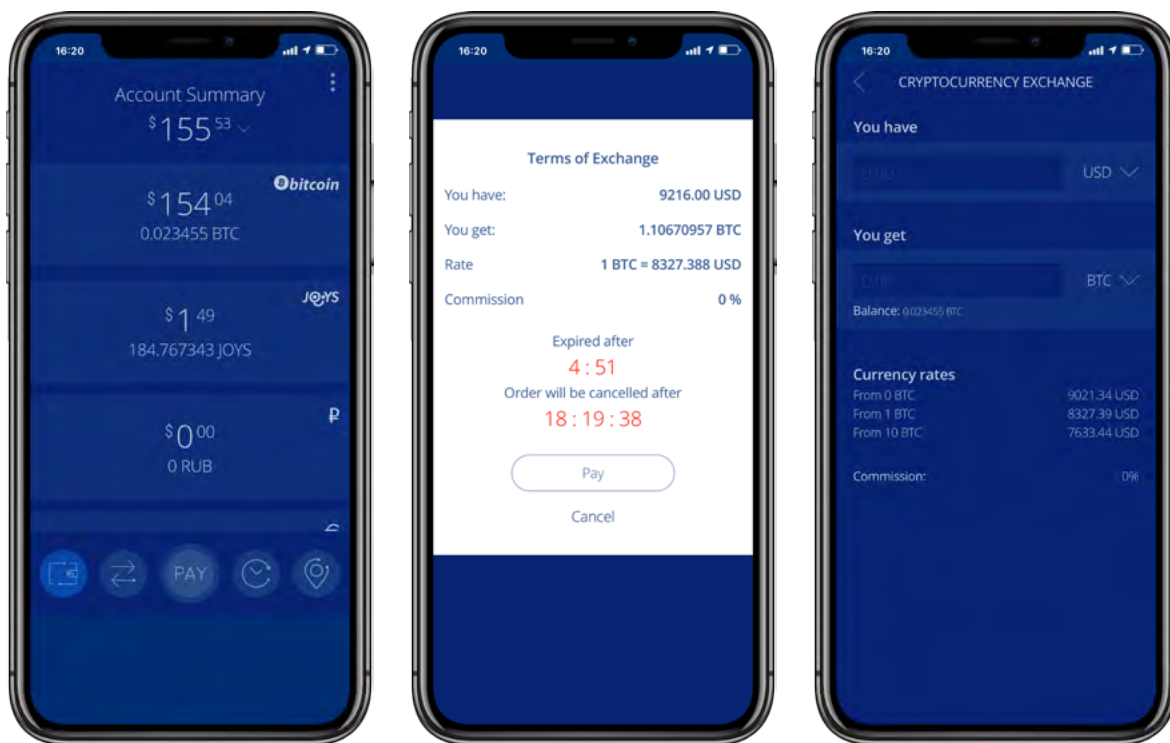

In addition, immediately after listing on the exchange, we will send an application for listing on the **CoinMarketCap**.

We will tell you more information in the next issue of the digest, as well as in our official groups.

Follow us!

Joys Wallet:

добавлен обменник криптовалют

Main Menu

Cryptocurrency Exchange

Now you can purchase JOYS, BTC, ETH, LTC and BNB for russian rubles and euros from a bank card, as well as exchange cryptocurrencies for each other inside our application in just a couple of taps of the smartphone screen. To purchase, you will need to specify the desired amount for the purchase and fill the details of your payment card.

The possibility of selling cryptocurrencies for fiat funds will be available in a few months. We will also add a purchase from a bank account — the process of crediting the payment will be longer, but the transaction fee will become much lower.

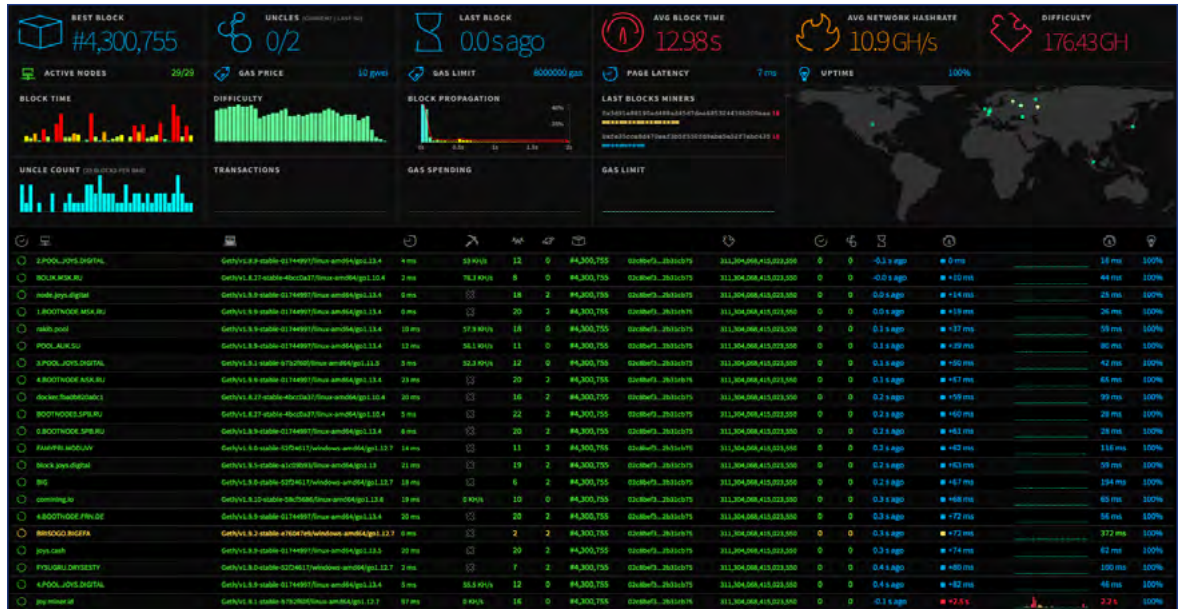

Our rates are among the lowest on the market: the commission for bitcoin purchases is from 4 to 4.8%.

Try it now and see how easy it is!

Joys mining pool and network monitoring update

We updated our **mining pool** and made it more stable.

We also updated the **network monitoring** by adding a map and detailed statistics :)

Technical information for solo miners and those who configure Joys nodes:

We are decommissioning the bootnode with the address 95.213.151.253 on the JOYS network from January 31, 2020.

Instead, we introduce 4 additional bootnodes:

<http://boot.joys.digital/static-nodes.json>.

This will have a positive effect on network connectivity.

Joys at Asian Financial Forum 2020

The Asian Financial Forum (AFF) was held in Hong Kong on January 13-14, 2020. Our marketing director Vladislav Gavriluk went to represent the Joys team.

The main task was to introduce our project to the visitors of the exhibition.

The financial community of the whole world that has arrived at the forum is 50 countries (including the USA, Europe, Thailand, Korea, Norway, Switzerland, etc.).

We have received and continue to receive offers to enter the Asian market.

Thanks to active participation in the forum, the Joys project has an opportunity to find business partners and new clients, as well as to make itself known in the global Finance market in Asia.

DSX and Connectum — our new partners for exchange of digital financial assets

We are growing and continue to find new partners around the world.

We began to cooperate with the **DSX** exchange and the payment company **CONNECTUM**. As well as our other partners, these companies will help us exchange digital financial assets for fiat funds.

DSX (Digital Securities Exchange Limited) was founded in the UK in 2014 and is a centralized exchange based in London. The main advantages include partnership with ePayments, which allows free and fast transfers between accounts and support of fiat currencies.

Connectum Limited has a financial license (Authorized Payment Institution) and the status of Principal Member Acquirer of Mastercard & Visa.

JOYS review from the YouTube channel «Cryptofishki»

The author of the YouTube channel **«Cryptofishki»** Andrey K., a miner and a member of our community, made a video review of the JOYS cryptocurrency.

In the video review, Andrey examined in detail our project, team and key features, and also spoke about the attractiveness of the JOYS coin for miners.

You can view the review at **[this link](#)** (available in Russian only).

Thanks for talking about Joys! Your support is very important to us :)

Cryptomemes

See you in the next month.
